

Lab3 — — — Xiang WEI

The screenshot shows a PyCharm interface with two windows. The left window displays a panoramic view of a parking lot with several cars, overlaid with numerous colored circles representing feature points. The right window shows a close-up view of a car's side profile, also with many colored circles. The top navigation bar indicates the file is named 'test.py' and the current tab is 'panorama1.py'. The left sidebar shows the project structure under 'zopencv'.
